C++ for Programmers is designed for students who are familiar with a programming language and wish to learn C++. This course focuses on 'how' as opposed to 'what'. For example, in the lesson on functions, we do not teach what a function is, but rather how to create a function in C++.

### C++ For Programmers - Udacity

At the same time, the standard C++11 was approved and we began to talk about C++ as a new language. By 2011, C++ had been in use for more than 30 years. It was not easy to convince developers that the new C++ actually simplified many frustrating facets of C++ usage and that there was a new modern way to improve the C++ Code.
