Rise - US - OTIS

The machine-room-less elevator is the result of technological advancements that often allow a significant reduction in the size of the electric motors used with traction equipment.

The need for locating the machine room over the hoist way is eliminated because newly designed, smaller permanent magnet motors (PMM)

Otis elevator was a great place to be employed. However In my opinion, the elevator trade is a single persons trade. I have a wife and two small children and the hours of this trade are alot to bare. Between working the 6 12's for 10 months straight and 3 1/2 hours of commute everyday, it begins to take a toll on
